

## Engineering & Fabrication

### Engineering and Fabrication

IME Engineering and Fabrication Ltd was an extension of the small element of the work that IME Repair Services Ltd undertook.

### IME acquire Hanson Site

In 2016, IME acquired the whole area of the Hanson Site in Southampton as part of an ongoing contract that covered IME running the stores for Hanson Marine.

### Expansion of services

With this contract came additional workshops and offices which allowed us to expand our Engineering and Fabrication Business, in conjunction with an already successful electrical business, IME Repair Services Ltd.

### The Complete Package

This now allowed IME to offer a complete package serving Marine, Petrochem and Industry with a turnkey facility 24/7.
